You can't always sit at a computer right?

1. Full remote control using voice commands;
2. Accessible for disabled people (visual and auditory feedback);

Sending an email should not stop you from doing your things!

Data privacy

No need to think where your data ends up! No authentication needed!

Everything when it comes to data:

- Contacts
- E-mails
- Phone numbers

Is stored and encrypted locally on your network or device.

Internet connection required just for IoT/surfing the web!

Collaboration inquiry/offer

Open for

Knowledge transfer - Large Language Models

Future collaborations
