Administrator overview

User overview

- Acting as a regular user
 - Use *cli* or IDE integrations to communicate with the cluster
 - Schedule jobs and allocate resources in your pool
 - Retrieve results and metrics
- Application awareness for *One vs Multiple*
 - Multiprocessing for CPU's
 - CUDA Toolkit which provides a development environment for creating high-performance, GPU-accelerated applications

Collaboration inquiry/offer

Open for **research collaborations** and **knowledge transfer**
involving High Performance Computing Infrastructures
